Report- “World Creativity and Innovation Day”

The Institution Innovation Council (IIC) of Pt. Ravishankar Shukla University, Raipur, in association with the School of Studies in Electronics and Photonics, organized a special program to celebrate World Creativity and Innovation Day on April 21, 2025. The celebration was marked by a Project Presentation Session at the Seminar Hall, School of Studies in Electronics and Photonics, where students of M.Sc. 4th Semester showcased their innovative research work and project outcomes. The event aimed to highlight the importance of creativity and innovation in academic learning and to inspire students to develop solutions with real-world applications.

The program commenced at 03:00 PM with the presence of esteemed faculty members, including Dr. Kavita Thakur, Head of the School of Studies in Electronics and Photonics, whose encouragement and guidance added academic depth and inspiration to the occasion. Her participation, along with that of other faculty members, set the tone for a meaningful exchange of ideas that aligned with the global theme of World Creativity and Innovation Day.

The highlight of the celebration was the student project presentations, where each participant had the opportunity to demonstrate their creativity, technical expertise, and innovative thinking. Projects covered a wide spectrum within electronics and photonics, showcasing solutions to technological challenges, novel research approaches, and interdisciplinary applications. Students presented not only their results but also their thought processes, reflecting the spirit of curiosity and problem-solving that the day symbolizes. By articulating the potential applications and advantages of their projects, the students illustrated how creativity and innovation can act as catalysts for future progress in science and technology.

During the session, Dr. Kavita Thakur provided insightful feedback on each presentation. She commended the students for their originality and technical rigor, while also offering constructive suggestions to refine their methodologies and strengthen their outcomes. She emphasized the importance of viewing academic projects as opportunities for real-world application and encouraged students to further develop their ideas into scalable innovations. Her remarks highlighted the role of continuous improvement, creativity, and innovation in achieving academic excellence and societal impact.

The atmosphere throughout the celebration was filled with enthusiasm and intellectual energy. Students engaged actively with their peers and mentors, reflecting on how their research could contribute to technological advancements and serve as the foundation for future entrepreneurial initiatives. The program not only enabled students to gain confidence in presenting their work but also helped them understand the value of innovation as a lifelong skill that extends beyond the classroom.

In conclusion, the celebration of World Creativity and Innovation Day 2025 at Pt. Ravishankar Shukla University, Raipur, successfully embodied the spirit of the occasion. By organizing a project presentation program for M.Sc. students, the university provided a meaningful platform for young innovators to showcase their talents and ideas. The event reinforced the message that creativity and innovation are powerful tools for addressing challenges, generating new opportunities, and contributing to sustainable development. With the guidance of faculty members and the inspiring participation of students, the program served as a reminder that innovation begins in academic spaces and can grow into impactful contributions for society.
