About the Event

On 15th August 2025, the Institution's Innovation Council (IIC) PRSU Raipur, organized a special program aligning the celebration of India's 79th Independence Day with the theme of "Innovation for Self-Reliant India." The objective of this initiative was to foster a spirit of creativity, entrepreneurship, and innovation among students while honoring the sacrifices of the freedom fighters who envisioned a progressive, self-sustaining nation. The event began with the ceremonial flag hoisting by Dr. Kavita Thakur, President of IIC PRSU and the Head of the Department SoS in Electronics & Photonics, followed by the national anthem and a motivational address emphasizing the critical role of youth in nation-building. In her speech, she highlighted how innovation is the new form of patriotism. She explained that in today's digital and globalized era, solving local problems through innovative solutions is one of the most meaningful contributions one can make to the country.

As part of the IIC initiative, various activities were conducted to engage students and faculty with the core idea of innovation. A speech and essay writing competition was held on the theme "Innovation: India's Next Freedom Movement," where participants expressed how modern challenges like climate change, unemployment, and digital divide can be addressed through innovative thinking. The best entries were awarded certificates and a chance to work under the mentorship program of IIC. A short film screening session was also held showcasing India's journey in space tech, digital public infrastructure, and grassroot innovations, highlighting the nation's potential in becoming a global innovation hub.

The event concluded with a group pledge where all participants took an oath to contribute towards building an innovative and sustainable India. The event not only celebrated our independence but also served as a platform to ignite young minds with the power of innovation and entrepreneurship. The IIC PRSU remains committed to nurturing innovation-led growth and aligning educational efforts with the national mission of 'Atmanirbhar Bharat' (Self-Reliant India). The successful integration of patriotic celebration with innovation-centric activities was appreciated by faculty, students, and external guests alike, and it reaffirmed the institution's role as a catalyst for change in society through innovation and leadership.

Conclusion/Outcomes

The event successfully merged patriotism with innovation, inspiring students to contribute to nation-building through creative ideas and technological solutions. It reinforced the belief that true independence lies not only in remembering our past but in shaping a progressive, self-reliant future. Participants pledged to drive positive change through innovation, making the celebration both meaningful and impactful.

Dr. Kavita Thakur
President, IIC PRSU
